

## **Vorlagen für Bausteine**

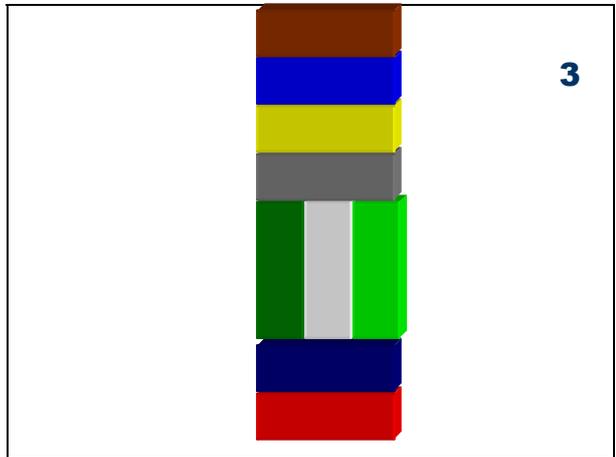

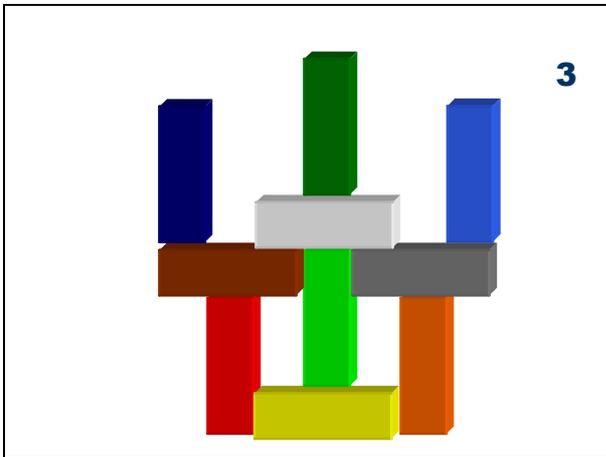

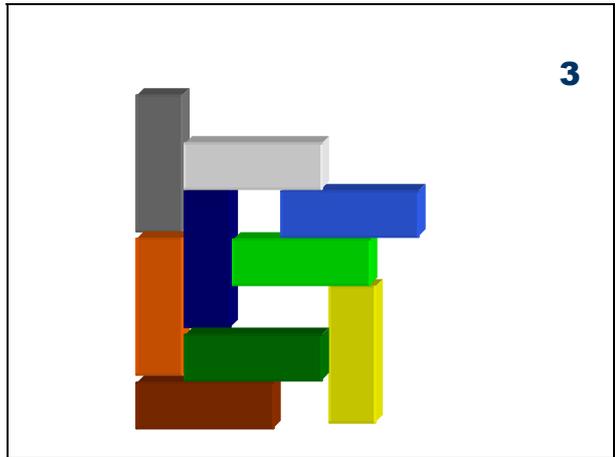

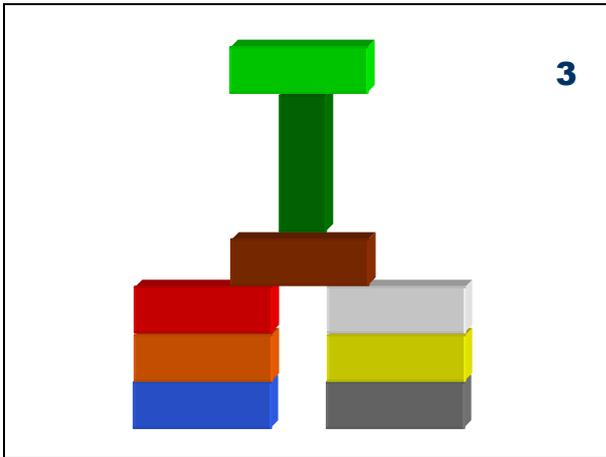

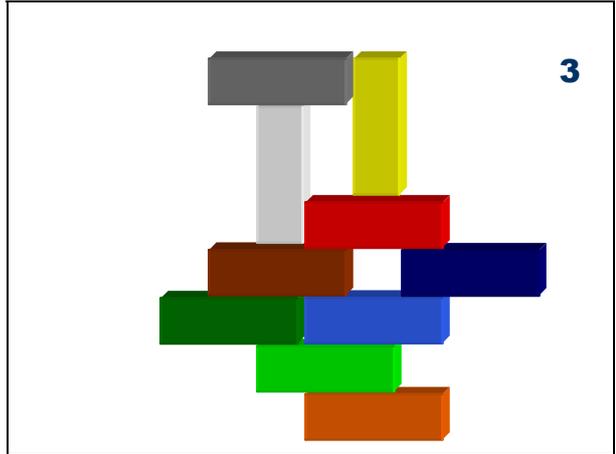

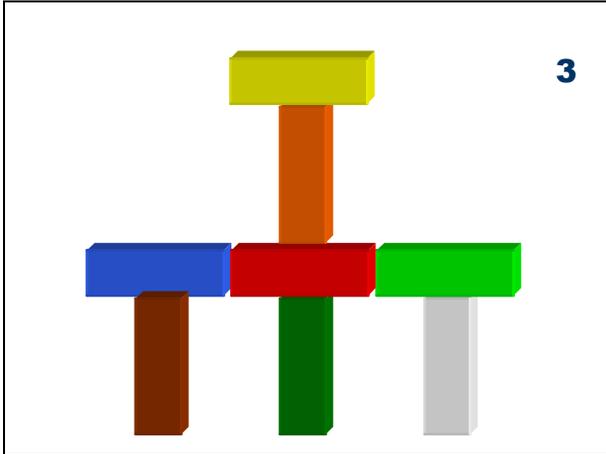

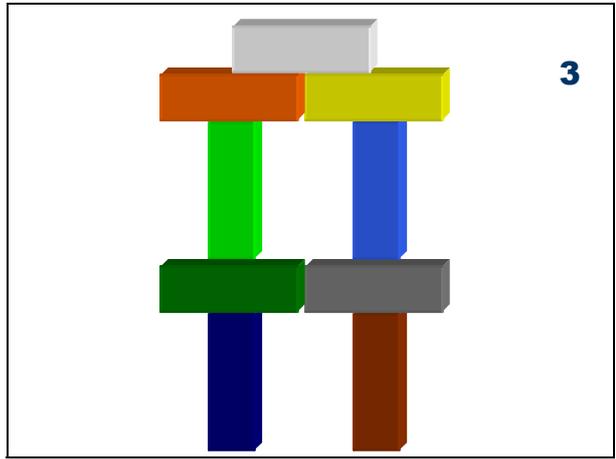

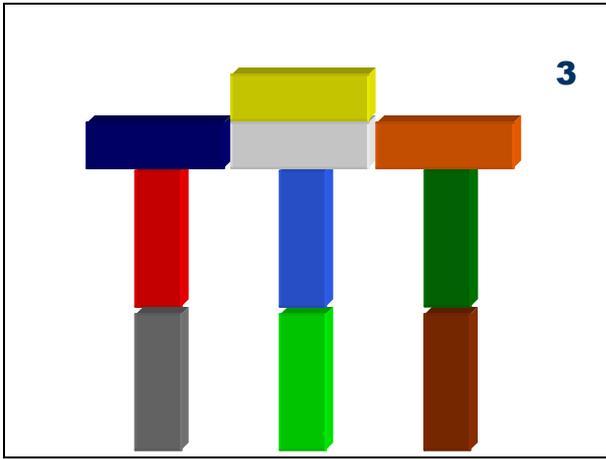

Material: 10 Bausteine, länglich und gleich groß, für „Wettbewerb“ 2 Sätze  
Vorlagenkärtchen auf stärkerem Papier ausdrucken, ev. laminieren

Ich verwende die Kärtchen als Vorlage für das Raumlage-Training:

- 3 verschiedene Schwierigkeitsstufen
- bei den farbigen Vorlagen muss die Farbvorgabe berücksichtigt werden – benötigte Farben: weiß, gelb, orange, rot, braun, hellgrün, dunkelgrün, hellblau, dunkelblau, grau
- bei den grauen Vorlagen ist es egal, welche Farbe die Steine haben (kann also auch verwendet werden, wenn entweder nicht alle Farben von Steinen wie oben oder naturfarbene Bausteinen vorhanden sind)
- kann mit oder ohne Zeitvorgabe verwendet werden
- kann auch „um die Wette“ gespielt werden (mit Bausteinsätzen)
